

# AMERICAN SECONDARY SCHOOL OF UGANDA

Mission: Using American methods, produce the best Math and Science students with excellent verbal, writing and speaking skills in Uganda. At the same time, every student will be required to participate in several sports to optimize the students Athletic abilities. This will produce graduates with excellent leadership skills and team work experience. It will also prepare students to successful compete for University Scholarships based upon both academic and athletic ability both in Uganda and the Western World.

IT IS OUR GOAL TO RUN THE SCHOOL WITHOUT CHARGING TUITION

so that financial considerations will have no affect upon acceptance.

We will be judged on our success in National Science and Math exams and our schools success in National and International Sport Competition.
